View Excel Data in BrightWork 365

When Microsoft Excel is added to Power Apps, Excel becomes a data source. You can view the Excel table data within Power Apps. For more information see this View Excel Data article.

Open BrightWork 365 Table Data in Excel

By opening table data in Microsoft Excel, you can quickly and easily view and edit data by using the Microsoft Power Apps Excel Add-in. For more information see this Microsoft Excel Table Data article.

> **Note** If a large number of project records are updated via an import, and then a subsequent import is initiated shortly thereafter to update the same records, the associated Flow can fail. In this case, you will need to retry the import at a later time.
