# Add a Custom App Tile Icon

> **Note** This article is for BrightWork 365 Release February 2023 (v1.6) and newer.

1. Navigate to https://make.powerapps.com/.
2. Select the BrightWork 365 environment.
3. Click **Apps** on the left nav.
4. Click on **BrightWork 365** to launch the App Designer for the BrightWork 365 app.
5. Click **Settings** at the top of the App Designer.

6. Select the **General** setting.
7. Click **Select icon**.

8. If the icon has not been previously added as a web resource, click**+ New web resource** and add the icon.

9. Select the icon.
10. Click **Apply**.
11. Close any open App Designer windows.

> **Note** It may take some time for the icon change to take effect.
