Approvals in Microsoft Teams

In addition to reviewing and acting on approval requests via the automatically generated approval request emails, and [BrightWork Approvals](#), as part of the [Request](#) and [Project](#) approval processes you can also do so within Microsoft Teams by installing Approvals in Microsoft Teams.

See the external articles below for more information about Approvals in Microsoft Teams:

Canceling In-Progress Approvals

An approval that is still in progress can be cancelled by the submitter from within Approvals in Microsoft Teams. To do so, from the **Sent** tab in the Approvals app the user selects the approval they want to cancel and then selects the **Cancel** option. Only approvals that are currently in progress can be canceled.

Reassigning In-Progress Approvals

In progress approvals can be reassigned from within the Approvals app in Microsoft Teams by clicking the **Reassign** button.

Although the new approver will receive notifications to take an approval action and their actions will show in email history logs, the original approvers will be maintained in the email **Approvers** field.
