

## Frequently Asked Questions

### How do I move a Program to a different Portfolio?

Users with the BrightWork PMO Manager or BrightWork Program Manager security role can change a Program's associated Portfolio from the Program Settings tab (the field is locked on the Statement tab by design).

### How do I create a Status Report?

Status Reports are created in the Status Reports tab. You can save draft versions of a report and whenever it's ready to go out you can specify who should get an emailed copy.

### How do I specify which colleagues should get emailed a status report?

You can specify within the status report form which colleagues should get emailed a status report.

Email Report to Sponsor	<input type="checkbox"/>
Include Additional Recipients	<input checked="" type="checkbox"/>
Additional Email Recipients	<input type="text"/>

### How do I manage risks including their status and the different people assigned to them?

Programs and Portfolios include a [Risks](#) tab for managing risks in a very well-defined manner.

### How can I monitor resource allocation and utilization?

BrightWork 365 includes various views and reports that will help you determine [resource allocation](#) and overall [utilization](#).
