

Portfolios Audit History

BrightWork 365 together with the Microsoft Power Platform provides organizations with the ability to track data change history and activity logging for use in analysis and reporting purposes. BrightWork 365 audit history has been enabled in the following tables:

See [Audit Tables.xlsx](#)  for a list of the columns that are audit-enabled.

To view Audit History, click the **Related** tab and choose **Audit History**.

Note

- There is often onload form code that automatically executes, and updates records, and this activity gets logged under the interactive user's name.
- In the **Filter on:** drop-down there are more fields listed than are actually available in the Audit History.
